# CHOOSING YOUR FABRIC

## STYLE TIPS FROM THE DESIGNERS

Whatever your style or taste, our collection offers something to suit everyone. You may know exactly what you want or need a little help so here are some tips to consider when choosing your new window shading.

### THE ROOM

Where and how are your blinds going to be used? Are you letting the light in or shutting it out? Privacy and sleep may be important factors to consider. Think about how the room is used and this will point you in the right direction.

### THE FABRIC

Once you've established how your blind is going to be used, you can then move onto fabric choice to see which one is right for you and your room. We have a selection of blockouts, sheers, moisture resistant, recycled, plains, textures and prints.

### THE COLOUR

When choosing colours, take your cue from existing colours, finishes and materials already in the room. If redecorating, create a mood board with inspirational interior images, your potential furniture, paint swatches, our fabric samples and your flooring.

# VISION® BLINDS

## ULTIMATE CURB APPEAL

Our popular, contemporary window shade that looks as striking from the outside of the house as it does from inside.

Vision® blinds feature two layers of fabric in alternating stripes of translucent and opaque. The back fabric moves independently of the front layer allowing the stripes to glide past each other creating an open and closed effect. This allows you to control the levels of light and privacy to suit your needs.

A wow blind needs stunning fabric and our Vision® collection offers just that. Natural and sumptuous tonal textures, subtle metallic shimmers and blockout options, make these blinds perfect for any room in the home.
